

ALL SALOONS OF STATE ASKED TO CLOSE FRIDAY

For Three Hours Before Departure of Soldiers for Camp

GOVERNOR ACTS

Mayor Toomey Cooperates With Request in Fresno.

SACRAMENTO, Sept. 19.—Acting on the following telegram from the provost marshal-general at Washington requesting the closing of saloons, Governor William D. Stephens tonight issued a proclamation in conformity therewith. The provost marshal-general's telegram reads:

"A large percentage of your population is about to leave home for the uncertainties of a soldier's life. While not an occasion for sorrow, it is a day for solemnity. It is especially inappropriate that it be observed by the untoward events which drunkenness brings in its train.

"Therefore I earnestly request that you consider the advisability of measures looking to the closing of saloons during such a period of national mourning. The next and subsequent mobilization days as may seem proper to you."

The Governor's proclamation follows:

"In compliance with the foregoing, I request that throughout the state of California such authority as is empowered to do so, cause saloons to be closed in every city, town and village for three hours previous to the departure of the men for their camp."

San Francisco Complies

SAN FRANCISCO, Sept. 19.—Prompt steps toward compliance with Governor William D. Stephens' appeal to close all saloons on Saturday and Sunday will be taken by the San Francisco police commission. It was announced tonight by President Theodore Ruch.

The police commission has always shown a desire to co-operate with the federal authorities, and there is no reason why it should fail to do so in so important a matter as this. There is no doubt as to the action of the board will be," he said.

Fresno Responds

Mayor Toomey last night issued a formal request to the saloonkeepers in Fresno to close their establishments at 10 a. m. and 1 p. m. on Friday. The request was made following the receipt of Governor Stephens' appeal from Sacramento.

The mayor last night, "in compliance with his request that the empowered authority take action, I make the formal request to them."

SMALLER VESSELS SUNK THIS WEEK

Record of Submarine Activity Heavy in British Report.

LONDON, Sept. 19.—British merchant ships of 1000 tons and over sunk by mine or submarine during the past week numbered eight according to the admiralty report. Twenty ships under 1000 tons were also sunk and one fishing vessel.

The foregoing number of vessels of more than 1000 tons is the smallest since the beginning of the war. In one week since Germany began her intensified submarine campaign last February, but the number under 1000 tons is the largest for any week, but one since mid-February. The total number of ships sunk is the largest since the week ending June 24.

CONTROL OF MIDDLE MEN ONLY RESOURCE OF FOOD OFFICIALS

Hoover Appeals to Both Consumers and Producers to Help With Supplies—Allies as First Line Defense

ATLANTIC CITY, N. J., Sept. 19.—Herbert Hoover, the food administrator, speaking on the world food situation tonight at the war convention of the Chamber of Commerce of the United States, declared that starvation would be the war and the side best able to organize its resources for food production and conservation would come out victor.

"The food situation of America and the Allies is such," said Mr. Hoover, "that the neutral countries of northern Europe cannot hope to get food from the United States unless they expect to furnish equivalent service in other directions to the common pool against Germany."

Lord Northcliffe, head of British missions in this country, told of his work as purchasing agent for Great Britain and how he is spending between fifty and sixty million dollars a week. He also stated that the fundamental changes in industry that the war has caused in Great Britain and that some of these changes would take place also in the United States.

BORDEN SUPPORTS WOMAN SUFFRAGE

Will Confer Franchise in Canada If He Is Again Premier

YANCOVER, B. C., Sept. 19.—In the event of Premier Borden's return to power, it is his intention to confer the franchise upon women generally and to make temporary amendments to the naturalization act, relieving women from discrimination as compared with men. In a letter to Mrs. J. O. Perry of Vancouver, the premier says: "In case I am returned to power, it is my purpose to place upon the statute book amendments granting the franchise to all women of British birth, and conferring upon women of foreign birth the right to seek and obtain naturalization on their own behalf, so that they may thus become citizens with the same privilege after suitable residence in this country and perhaps after suitable constitutional tests. The same measure should provide that citizenship upon marriage except with her own consent."

TO TRY KORNILOFF AT BATTLE FRONT

PETROGRAD, Sept. 19.—General Korniloff, leader of the recent revolt, has been decided definitely, will be tried by court martial with a jury. At the instance of the council of workers and soldiers delegates, the government has agreed that the trial shall be held at the front instead of in Petrograd.

CHRISTIANIA, Sept. 19.—German submarines have sunk the Norwegian steamship Fagot of 1312 tons and the Thomas Krag, 2559 tons. It was announced today at the Norwegian foreign office. Two men from each vessel perished.

BRITISH SHELL FIRE STRONGER IN FLANDERS

Bombardment by the British artillery of the German lines in the Ypres sector in Flanders continued most intense, but there has been no infantry movement in force. An attack on a larger scale than the usual daily raids probably is imminent.

Berlin is apparently much exercised over the ever-increasing volume of shells from the British big guns. From the Houtholst wood, northeast of Ypres to the River Lys, on the Belgio-French border, British reports the British fire has been destructive. Field Marshal Haig's artillery increased its volume of shots to drum fire several times. At several points from the Aisne valley to Lorraine the French have made raids into the German defenses. Here, too, the expenditure of ammunition is great, especially on the Aisne front and northeast of Verdun.

Italians Active in the North

The Italians have been more active on the Trentino front, harassing the enemy with raids and strong artillery fire. In a forward movement near Carzano in the Sugana valley, east of Trent, the Italians captured 200 prisoners. Austro-Hungarian attacks on the Balzizza plateau continue, but General Cadorna's men have held them for no gains.

Rumanians Pressing Forward

The Rumanians continue their offensive in the mountain region north-west of Fokshani, Moldavia. Attacking the Austro-German defenses south of Grozestchi, near Oacu, the Rumanians captured a height. Berlin reports that the Rumanians, at first successful, were driven from the positions, suffering casualties and losing prisoners.

SOLDIERS RAID LOS ANGELES OFFICE OF I. W. W.

March in Military Form to Headquarters and Destroy Furniture

NO ARRESTS YET

Police Guard German Daily Newspaper When Attack Expected

LOS ANGELES, Sept. 19.—A crowd of soldiers, variously estimated at from 200 to 400, wrecked the headquarters of the Industrial Workers of the World here late today. Typewriters and furniture were broken, windows smashed and all movables. There were no reported casualties and no arrests.

The soldiers, in column of squads, marched down San Pedro street and swung into Fifth street, where the headquarters were located. At a shouted command, they halted and remained in line while three or four of their number stepped forward and told Philip McLoughlin, secretary of the local, and two or three loungers, that they were going to "wreck the place."

RIGALL TELLS OF FAKING EVIDENCE

Paid to Be Witness in Mooney Case—How Oxman Coached Him

SAN FRANCISCO, Sept. 19.—Frank C. Oxman, Durkee, Ore., cattleman offered F. E. Rigall, Grayville, Ill., automobile man, his personal check for \$250 to give false testimony in the trial of Thomas Mooney, convicted of the 1916 platform men of the United States.

"Crowds of strikers and substitute carmen fought a pitched battle in front of a car barn. Police reserves were rushed from two precincts. Several of the rioters were bruised and beaten. After the carmen had been dispersed, substitutes, according to the police, attempted to effect a rescue of three of their number who had been arrested. They were beaten off by police armed with riot sticks.

The company, announced again tonight that service should be discontinued at a clock in an effort to forestall disturbances.

Settlement of the strike was apparently remote, with the strikers holding out for their demands and the company refusing to arbitrate.

MUST NOT SIGN SALOON PETITIONS

ST. LOUIS, Sept. 19.—After a long debate the grand lodge of Missouri A. F. and A. M. in St. Louis here today adopted a resolution providing for the expulsion of any Mason who signs a petition for a saloon or gives bond for a saloonkeeper. The vote was 1189 for and 350 against the resolution.

PEACE MOVES

COPENHAGEN, Sept. 19.—The new Hungarian government paper, Dilly-Hilap, says that a new party composed of adherents of Count Apponyi, Count Andrássy and M. Vassanyi has been formed under the leadership of Dr. Alexander Wekerle, the Hungarian premier. The party, it is understood, will favor peace without annexations.

COPENHAGEN, Sept. 19.—Count Michael Karolyi, president of the Hungarian independence party, according to a Budapest dispatch, declared at a meeting yesterday that he would not agitate for peace between the warring countries. He said he had been invited to participate in a peace conference at Bern on October 15 and would leave for Switzerland, notwithstanding the violent attacks that probably would be directed against him.

Austria's Reply

AMSTERDAM, Sept. 19.—Austria's reply to Pope Benedict's peace proposals, says the Wiener Allgemeine Zeitung, will be handed to the papal nuncio at Vienna Thursday and will be published Saturday.

The reply will confine itself to a detailed discussion of the Pope's suggestions. The report that it will contain new and astonishing peace proposals, the Vienna newspaper adds, is absolutely at variance with the facts.

"Germany Losing"

ZURICH, Sept. 19.—General Baron von Preyung-Löning, chief of the supplementary reserve staff of the German army, has published a pamphlet entitled "The Results of the World War," in which he says:

"The general political and economic situation of the world works only in favor of our enemies and the German army will be defeated of the fruits of their victories."

FOOD KITS FOR AMERICANS HELD BY GERMANY

WASHINGTON, Sept. 19.—Each American prisoner of war held in Germany will receive every two weeks through the American Red Cross committee in Switzerland three "food kits" containing from 2 to 10 pounds each. It was announced today that the food division of the German government of food has prescribed a table of food for each "kit" so that sufficient nutrition may be sent to care for a prisoner until the next package arrives for him.

The German authorities have agreed that each American shall personally sign a receipt for his "kit." At this time 101 Americans are prisoners in Germany.

REGULAR TROOPS TO BE STATIONED AT CAMP FREMONT

SAN FRANCISCO, Sept. 19.—Fourteen thousand four hundred men, composed of the eighth, twelfth, thirteenth, sixteenth and sixtieth United States infantry regiments and the first, twenty-fourth and twenty-fifth cavalry regiments, will proceed to Camp Fremont at Palo Alto, Cal., where the camp is situated. It was officially announced at headquarters of the western department here today.

The infantry regiments are now at the Presidio here while the cavalry is stationed at Fort D. A. Russell, Wyoming. All of the troops are regulars. The camp is located in a rolling country of grain fields and fruit orchards. It comprises 25,000 acres adjacent to Stanford University.

CARRY RECRUITS TO AMERICAN LAKE

Longest Run Is That From El Centro to Tacoma

SAN FRANCISCO, Sept. 19.—Railroads of the West began today their five-day task of transporting 15,000 men to Camp Lewis, American Lake, near Tacoma, Wash., the encampment of the Ninety-first division of the new national army. Successful accomplishment of this feat will be without parallel in railroad annals. It was said by traffic experts here. They pointed out that the men must be brought from eight states and must be furnished with at least 200,000 meals without interfering with the operation of other trains which are taxed by an added load of 25 per cent more freight than has ever been carried.

ARGENTINE SENATE FAVORS BREAK WITH GERMAN EMPIRE

Great Britain Will Not Give Safe Conduct to Luxburg for Return Home

BUENOS AIRES, Sept. 19.—The Argentine senate by a vote of 23 to 1 today declared for the breaking off of relations with Germany.

The resolution now goes to the chamber of deputies. There is strong public feeling in favor of its final passage.

LONDON, Sept. 19.—It was learned that Great Britain does not at present intend to approve any application for a safe conduct for Count von Luxburg, the German minister to Argentina, whose passport has been handed to him by the Argentine government.

WASHINGTON, Sept. 19.—News that the Argentine senate had voted overwhelmingly to sever diplomatic relations with Germany was received in Washington tonight with gratification and no little surprise.

Officials had recognized that recent disclosures concerning cablegrams sent to Berlin by the German minister at Buenos Aires through the Swedish foreign office had aggravated the situation. Argentine ships, it had been assumed that, with the German minister's passport, no further official action would be taken pending receipt of Berlin's explanation of the messages.

Although it is understood the state department is purpose in making public copies of the cablegrams was only to expose the German government's worldwide system of duplicity and intrigue, it is no secret that Argentina's participation in the war would be welcomed.

Even the breaking off of relations, it is pointed out, would have a beneficial effect on public opinion in all South American countries where German influences are known to be strong. That action also probably would result in considerable material benefit to the Allies by restricting Argentine affairs and meat exports to neutral countries through which they might find their way to Germany. Argentina is now the only great neutral food producing country.

WASHINGTON, Sept. 19.—Sweden's official release today, stating that the part her diplomatic agents have taken in transmitting German messages is regarded here largely as a cloak to cover what must necessarily be an embarrassing internal reform.

Officials of the state department today made an effort to conceal the fact that the United States is disposed to accept the unofficial statements of release.

CLAIM MITCHELL LEADS PRIMARIES

Bennett Makes Strong Fight for Mayoralty Nomination

NEW YORK, Sept. 20.—With eighty election districts missing out of a total of 200, Mayor John Purroy Mitchell, fusion candidate for reelection, has a plurality of only 574 votes over William M. Bennett in the Republican primary election held here today. The missing districts are said to be about evenly divided between Mayor Mitchell and Bennett.

NEW YORK, Sept. 19.—Supporters of John P. Mitchell, fusion candidate for reelection, late today claimed that he had won the Republican mayoralty nomination in the primaries held today, but only after a close contest with William M. Bennett, who entered the field without organized support.

The unexpectedly heavy vote given Bennett, who is a former state senator, was a feature of the primaries. With returns received from 1310 districts out of 2000 in the greater city, the vote was: Mitchell, 3,042; Bennett, 2,772.

The final figures will not be available until early morning. There were no contests in the Democratic primaries except for judicial nominations. John P. Tilden will be the Democratic candidate for mayor against Mitchell.

KILL POLICEMAN IN POLITICAL RIOT

Philadelphia River Front Election Contest Disorderly

PHILADELPHIA, Sept. 19.—This city is aroused by murder and riot today in the Fifth ward, known as the "Bloody Fifth." The murder, that of a policeman by a man declared to be a gunman imported from Jersey City, was the outcome of a bitter political fight between two rival Republican factions for the control of the ward, which skirts the river front.

For weeks the battle has waged, culminating today, when the primary election was held for the naming of candidates. James A. Carey, holding a rather prominent city office, and Isaac Deutsch were the opponents for the nomination for select councilman from the ward on the Republican ticket. Early in the day Carey, while making the rounds of the ward, was attacked by a man alleged to be an alleged Macias of Jersey City. He was struck from behind with a sandbag and then blacked. At the same time J. H. Maurer, an assistant district attorney, was attacked. Policeman George A. Eppley went to their rescue and the alleged Macias placed a revolver against his abdomen and fired. Eppley died later in a hospital. On his deathbed he identified Macias as his assailant.

Macias was arrested, and along with him John Costello, also of Jersey City. The police questioned them for an hour and later announced that both men had confessed they were hired in New York or Jersey City with nineteen others and brought here yesterday to vote for Deutsch.

Macias is charged with murder and Costello with being an accessory to the crime. Costello denied that he did the shooting.

Today's rioting was the culmination of trouble which began last night, when about thirty thugs attacked the Finletter club, the Republican organization headquarters in the Fifth ward, and shot up the place. Six men were sent to the hospital.

RECORD BEEF PRICE AT SIOUX CITY

SIOUX CITY, Ia., Sept. 19.—What is said to be a record price for beef sold at auction—\$18 to \$18.50—was paid for a head of prize winning steers at the Interstate Livestock fair here today.

WASHINGTON, Sept. 19.—Loans of \$50,000,000 to Great Britain and \$20,000,000 to France were made by the government today, bringing the total thus far advanced to the Allies up to \$2,391,400,000.

How To Judge a Woman

By Her Hair

There is real common sense in just noticing whether the hair is well kept to judge of a woman's neatness, or good taste. If you are one of the few who try to make the most of your hair, remember that it is not advisable to wash the hair with any cleanser made for all purposes, but always use some good preparation made expressly for shampooing. You can enjoy the very best by getting some shampoo from your druggist, dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair. Instead of just the top of the head, shampoo the back, and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, and the stimulating scalp gains the health which insures hair growth.

HOME GUARD STEPS LIKE ARMY VETS

Fresno's four home guard companies rapidly are making the membership required for formal organization under the state law. Three have collected the necessary quota and the fourth is close to the mark.

Captain S. L. Gallagher's company, which elected officers Tuesday, drilled for an hour and a half at the state armory last night and they worked like veterans. So much interest is being taken in the organization that a large number of women witnessed the drill.

Papers for the Gallagher company will be mailed to Adjutant General Boree today for approval. G. W. Kelley's company will meet tonight to elect officers and H. A. Sessions' company will hold its election tomorrow night.

HOUSE IS DESTROYED

The home of W. P. Jennings, 3301 Iowa avenue, was destroyed by fire early last night. The blaze started in a clothes closet. The origin is not known. Jennings and his family were not home at the time of the fire.

Fresno Musical Club members and prospective members are anticipating with interest the season's series of war attractions which the club management will offer commencing on October 12, with the appearance of Margaret Meizner, contralto of the Metropolitan Opera Company. The seat sale for subscribers will be held on Friday and on Saturday until noon, when the sale will then be declared open to the public.

Among those who are to be heard in concert early in the season will be the Cherniavsky Trio.

That the Cherniavsky Trio has indelibly impressed itself on the hearts and minds of all who have heard them is a foregone conclusion. "Russian genius has culminated in Leo, Jan and Michael Cherniavsky, the most famous of Russia's musicians," says a well known artist.

Much is being displayed in the direction of how they compared ten years ago with the many child performers who have of late astounded audiences in Europe, and it is said that in all the large art centers these performers were accounted as worthy to be spoken of with the greatest of their predecessors. In one respect they stand alone and that is in their extraordinary performance of concerted music, ranging from the early times of Haydn to the latest chamber music of today.

Their father, a celebrated Russian conductor, has always made a special feature of ensemble work with his

sons, and in selecting the instruments which they should individually take up, has always had in mind the utilitarian side. Leo Cherniavsky is said to compare favorably with Rubell and Elman. Jan Cherniavsky is the most brilliant of Russian younger pianists, and Michael is among the three great cellists of the world.

Mrs. E. M. Miller and her daughter, William, McVean, of Manila, Philippine Islands are expected to return at the end of the week from San Francisco, where they have been spending the summer at the Bellevue Hotel. Mrs. McVean will spend several weeks in Fresno as she plans to sail from San Francisco on October 20 for her home in the islands.

Mrs. E. A. Seymour and her two children, Sylvia and Patricia, have returned from a visit with relatives in Carson City, Nevada.

Mrs. Edna Orr James returned last night from San Francisco, where she had been enjoying a sojourn of a month or so.

Mr. and Mrs. L. A. Nares have returned from an extended summer outing at Del Monte and the Bay Cities.

Mr. and Mrs. Charles McNell are receiving the congratulations of their friends upon the advent of a little son in their household. Mrs. McNell was

Miss Bernice Maul before her marriage.

Mrs. A. E. Sunderland and her daughter, Miss Netta Sunderland, will leave shortly for Los Angeles, where the latter will enter the Egans School of Expression. Mrs. Sunderland will visit friends in the northern California cities before returning to Fresno.

Mrs. James Madison and Miss Onelda Madison left yesterday for their home in San Francisco after a brief visit in the W. F. Forsey household, while enroute from a motor trip to San Diego.

Mrs. Walter Shoemaker has returned from a several weeks' visit in the Bay Cities, having accompanied her daughter, Miss Mabel Shoemaker, north, when the latter entered Mills College.

Mrs. E. G. Waterman has returned from San Francisco, where she enjoyed a short sojourn.

Miss Annette Elmore returned last night from an extended visit with friends in San Francisco and the Bay Cities.

Mrs. W. J. McNulty leaves Saturday for Santa Rosa to attend a convention of city planning commissioners.

A very jolly dinner party was that given recently at the home of Mr. and Mrs. Perreca Bingham, complimenting a number of Fresno men who leave shortly for the army training camp. Among those included were Mr. and Mrs. Bingham, Mr. and Mrs. Cecil Bingham and son Stanford; Mr. and Mrs. Cloyd Bingham, Mr. and Mrs. Forrest Bingham and daughter Gladys; Mr. and Mrs. Archie Bingham, Mr. and Mrs. Howard Bingham and sons, Mrs. Charles Bingham and children, Mrs. Brooks Bingham, Harriet and Stella Bingham.

Mrs. William Stranahan has returned from an outing of a month or two at Monterey Bay and San Francisco Bay. She is enjoying a visit from her guests, Mr. and Mrs. Charles Sigwald, of San Francisco, who came down last night to spend some time in Fresno.

Mr. and Mrs. J. W. Downing and family have returned from a summer outing at Pacific Grove.

The Baraca and Philathea classes of Grace M. E. church will give a program at the church parlors this evening, including in the program will be vocal and instrumental music, rhetorical numbers and a "grandmother's album." Refreshments will be served following the program.

Mrs. W. J. McWilliams and Mrs. Earl Barnard and little daughter have returned from Long Beach, where they spent the summer.

Mrs. Meta Hansen was hostess at a kitchen shower Tuesday afternoon in honor of Miss Blanche Johnston, whose wedding will be solemnized in a few days. At the conclusion of guessing games, dainty refreshments was served. A patriotic color scheme of red, white and blue was observed in

HASSLOCHER QUILTS AS CLUB DIRECTOR

Action Surprises Board; Resignation Is Accepted

E. A. von Hasslocher, resigned as managing director of the Fresno Commercial club at a special meeting of the board of directors held yesterday morning.

His resignation was accepted, and all became effective October 1. Von Hasslocher will engage in business here, but said he could not make public any of the details of the pending business organization until it had been completed.

The retirement of von Hasslocher was not unexpected and came as a surprise to his friends and club associates. It was generally reported during the day that the resignation of von Hasslocher was due chiefly to the inability of the county conventions committee to collect a sufficient amount of its subscription to make up the total of von Hasslocher's salary.

The table appointments, those present were Mrs. Hansen, Mrs. Badeltcher, Mrs. Prater, Misses Meta Hansen, Dora and Lena Badeltcher, Margaret Urledge, Lena Finnerup, Gertrude Groves, Stella and Eva Hansen, Heika Jensen, Sophia Poulsen, Hanneke Johnston.

Dr. R. Gottlieb entertained last evening at dinner at his home, 2127 McKenzie avenue, complimenting Mr. and Mrs. J. Tway (Beale Gray), whose marriage was celebrated a few days ago. Covers were laid for sixteen guests.

Mr. and Mrs. J. E. Ragan are receiving congratulations upon the birth of a son on September 17.

Mrs. A. H. Sweeney and two daughters, have returned to Fresno, after a pleasant visit in Napa Valley.

Lillian Russell's Beauty Talks

HOME-MADE ASTRINGENTS.

(Copyright, 1917, by Lillian Russell.)

All women and girls desire to look fresh and clean at all times. In the country where there is no factory smoke nor road dust to settle down upon your face, complexion as soon as you leave your own room, it is a simple matter to keep clean and remain clean for at least one day. Not so in our busy manufacturing towns and America is now one great factory—everything is going "full blast," for we seem to be feeding and clothing the whole world. We are at present most prosperous and there is no excuse for poverty as there is work for every one to do, and with good pay. Prosperity makes indolence and indifference more readily of us. We must watch ourselves that we do not fall into the lax habit of going to bed without cleaning your face, neck and hands and rubbing some pure, healing cold cream on them.

The pores of the skin are very susceptible to the action of any kind of dirt, even the pollen of flowers will settle in the pores and cause a rash that is most irritating. It seems as though everything in the air conspired to mar or ruin a fair complexion. The face is nearly always covered with dirt and therefore is receptive of all kinds of annoyances unless carefully guarded against.

Creams are necessary to cleanse and soften the outer cuticle—not a day should pass without applying some good cream to the face. When doing any kind of work in the house, or in the garden, cream should be rubbed gently over the skin—then rubbed off and a little rice powder dusted over it. Thus the pores are covered with enough pure matter to prevent any impure substance from settling on the skin of the face.

Many persons have too serious an effect and cause the outer cuticle to become a little flabby or loose. This is especially noticeable among women and girls who take no exercise. In that case a lotion of an astringent nature should be used after rubbing off the cold cream. A lotion of some kind which will cut the oil and tone up the skin. Pure water is not sufficient, and soap should not be used on the face just before putting on powder. There should always be a medium between the dryness of the soap and powder. Many women wonder why their faces become rough and ugly. It is because they use no cold cream on their faces after washing with soap.

I am offering you a simple astringent lotion, which you may make for yourself if you wish. Mix a pint of camphor water, half an ounce of pure glycerin and a quarter ounce of powdered borax. With half an ounce of witch-hazel. Keep the lotion in a bottle and use it after cleansing your face with cold cream. Absorbent cotton is the best to rub it on.

with—but a soft piece of linen or sterilized gauze is also good.

This lotion is astringent and will reduce enlarged pores if used regularly. A similar and cheaper lotion is made by diluting white wine vinegar with an equal quantity of water. This will cut the face cream and also has a bleaching effect. It should be used but once a day, however, as it has a drying effect, but when used immediately after cream, will do no harm.

A generous size bottle of astringent lotion should stand upon every dressing table, as its use is most refreshing for the throat, neck and under arms, as well as the face, especially in the summer time, when everything seems to conspire against beauty as well as comfort.

Good Silver Tableware

Where Price and Quality Meet

Economy

Is not a matter of price alone. Quality, service and price spell true economy and quality plus service are the more important factors.

An inferior article is expensive at any price. Here you will invariably find merchandise of the highest quality and the service the very best at a price as low and often lower than that asked for a lower quality elsewhere.

This is truly the store of real economy. Put us to the test.

New Fall Draperies

As the Fall season approaches the need for adding a cheery touch to the home becomes apparent. New draperies here and there will give an added charm.

CARUTHERS WILL TALK ON BILLION BUSHELS

The Caruthers Farm Bureau Center will meet at the Chamber of Commerce Hall at Caruthers tonight, at 8 o'clock. County Farm Adviser Leroy B. Smith will report on the meeting of the 18th Council of Defense at Sacramento and the Conference of Farm Advisers at Davis, with special reference to the selection of surplus food for 1918 crops. Other topics up for discussion are alfalfa, caterpillar operation, alfalfa and silage.

*Adviser Smith is particularly qualified to talk to farmers at this time, since he has heard all of the farm advisers and other noted agriculturists of the state speak on the subject of a billion bushel wheat crop for the United States during 1918, and can tell the local farmers how they can best co-operate in the great drive for a billion bushels.

LOCAL MAN MAKES FAST TRIP NORTH

Charles Jewett, a local automobile dealer, returned yesterday after a three weeks' trip through the northwestern territory. During his trip he visited Portland, Seattle and Spokane. Jewett claims a record in his trip from Fresno to Portland, making the trip in three and one-half days, which, according to local records, is exceptional time.

REFUND \$9,904.78. TO LOCAL RED CROSS

Money Cannot Be Used
for Local Purposes But
in War Expenses Only

A refund of \$9,904.78 from the Red Cross authorities at the local chapter of the Red Cross, was announced yesterday. The refund amounts to 20 per cent of the amount collected in the county for the Red Cross fund. This refund must only be used for actual expenses in connection with the war, and cannot be used for local purposes. Of the subscriptions pledged to the county Red Cross fund \$19,523.96 has been collected, leaving a balance of \$18,177.55 unpaid.

Back numbers of the Red Cross magazine cannot now be obtained. Of the numbers for July, August and September only one copy for each of these months could be obtained in San Francisco. During August the subscriptions jumped from three to five thousand.

The post office Red Cross mail box was opened yesterday, after the collection of \$48.32. It was announced that 56 public health nurses had been assigned to army cantonment duty in the county.

At the J street work room there has been a gradual falling off in the number of workers. Yesterday there were nine workers engaged in making pajamas. More workers are required and the committee makes an appeal to women who can afford the time to assist them. Two girls assisted in the work yesterday, one of them although crippled was able to render excellent service.

Sanger sent in his first lot of work and tranquility auxiliary visited the work room yesterday.

The ladies in charge for the day yesterday were Mrs. T. W. Wilson, Mrs. J. H. Newman and Mrs. Henry Bates. The ladies who sewed during the day were Mesdames R. F. Prescott, T. H. Pierson, Robert Featherford, J. A. Mattingly, S. F. Glusko, Mosely Bell and Misses L. Rae, Ruth Newell, Dorothy Porter.

RECORD NUMBER JAILED.

With 155 men in jail, a record has been made for the number of prisoners incarcerated at any one time for the year. Only 27 of the inmates are held on felony charges, the rest being held on trivial complaints. These are about 20 men being held for investigation from the federal authorities and the rest range from plain drunk to petty larceny.

DANES SAY GOODBYE TO FIVE COUNTRYMEN

In a farewell to five members of the Young People's Society of the Danish Lutheran church, who have been drafted into the army of the soldiers of freedom, the pastor last night told the boys to be true Americans and come back with victory.

"I have always been a strong advocate of preparedness for the sake of peace," he said, "and I have repeatedly spoken of the wrongs committed by the German government, both toward Denmark, in 1864, and ever since, as well as toward our own United States."

The Danes have experienced the "scrap of paper" theory before the picture ever heard of it, as it is well known how the German government broke its pledged word to Denmark in regard to the common suffrage of the people in the province which they took from Denmark in 1864.

The five members of the society who will leave for the front tomorrow and to whom the farewell reception was tendered are Ouf Nielsen, Jens Larsen, P. N. Myrdal, Jacob Paulsen and Hans C. Larsen.

FIRE ALARM SYSTEM TO BE IMPROVED

Work of overhauling the fire alarm system under the recent appropriation of \$2,000 was begun yesterday with the arrival of a variety of tiny telegraph poles. The overhauling, to be carried out under the direction of City Electrician T. B. Robinson, will in large measure carry out improvements recommended by the state railroad commission.

TO GIVE RECEPTION TO REV. R. O. YOUTZ

Members of the First Christian church will tender a farewell reception tonight to Rev. R. O. Youtz, for the past year, assistant pastor of the church and who has been called to the pastorate of the Pruit Avenue Christian church in Oakland.

Mrs. C. A. Murdoch and Mrs. G. L. Wardlaw will give a dinner, a monetary gift, Mrs. Youtz, for the past year, "Thought," will be given by Mrs. Roy O. Youtz; a solo on the bandstand will be rendered by the Rev. Mr. Youtz, and a quartet composed of Mesdames Murdoch and Wakefield and Messrs. Landrum and Hays will continue the entertainment. Addresses will be made by A. E. Kving and Dr. Breiden. The Rev. Mr. Youtz will leave for his new church October 1.

WARRANTS ISSUED AGAINST I. W. W.'S

Accused of Sedition by
Government; Shannon
Off for Los Angeles

Warrants accusing sedition under the Espionage act were issued last night by United States Commissioner Charles S. Shannon, special agent for the department of justice, against fifteen of the twenty-six I. W. W.'s now held in the county jail. At midnight Deputy United States Marshal S. J. Shannon left for Los Angeles with the warrants, where it is rumored that today an attempt will be made in the federal court to secure the release of the I. W. W.'s by habeas corpus proceedings. The I. W. W.'s against whom no charges have been made will be released today or tomorrow. Statements from the news that the government has decided to hold for prosecution were taken by Sheriff Thorndahl.

The following men are accused by the government of attempting to block government work during time of war: James Elmer, Charles Elmer, Allen A. Baker, Abe Rubin, William Probert, Frank Clark, Frank Elmer, Harry Gray, C. T. Bill, Charles Foster, H. A. Latour, R. T. Connors, Leon Klineham, Elmer Anderson and John Dymond.

APPEALS FOR GIFT OF SPORTING GOODS

Word has been received in Fresno from Sergeant Glenn V. Slater of the 104th and 105th regiments at Kelly field, San Antonio, Texas, that gifts of sporting goods would be acceptable to members of the squadron. Sergeant Slater was formerly a resident of Fresno, and was agent of the Western Auto company here before he enlisted. He was elected manager of the basketball team of his squadron.

Sergeant Slater states that the squadron is made up entirely of men from the San Joaquin valley.

MONMOUTH TO HOLD ORGANIZATION MEET

The first meeting for the purpose of organizing a farm bureau center will be held at Monmouth tomorrow evening at 8 o'clock. In addition to explaining farm bureau organization plans, LeRoy B. Smith will report on the meeting of the state council of defense at Sacramento, the conference of farm advisers at Davis, and will make special reference to sorghum seeds for the 1918 crop. Piles and other matters of the day will be discussed.

NINE ENLISTMENTS IN TWO DAYS FOR ARMY

Three men on Tuesday and six men yesterday was the report of enlistments at the army recruiting office. The enlisted men are: William H. Bryan of Fresno, quartermaster corps; Jesse R. Buchanan, Company C, Second N. G. C.; David P. Brown, with engineers; George A. Sutter, 20th engineer; Charles H. Keegan, 2nd engineer; Clifford N. Brown, medical department; Alfred W. Burke, 2nd engineer. Report of recruiting for the United States for the month of July, and orders for recruiting in special branches were received by the recruiting office. In the report for recruiting for the month of July for the whole United States, San Francisco district stands third on the list with a total of 1,491 recruits secured for the army. The figures are as follows: New York, 2,201; Chicago, 2,102; San Francisco, 1,491; and Boston, 1,354, and other cities showing fewer numbers.

The local recruiting station is informed that a special effort should be made to secure enlistments for the National Guard coast artillery organizations in order to bring them up to their authorized strength.

Recruiting officers are authorized to accept for enlistment for the engineers of the regular army or the national army, physically qualified men whose previous training in civil life, as shown by investigations by the recruiting officer or by engineer officers, renders them specially fitted for the engineering organizations heretofore authorized. Recruits under this authority will be enlisted for engineers, national assignment, or engineers, national army, general assignment.

According to an order received yesterday at the recruiting station an applicant for enlistment who is married before being accepted, will be required to furnish an affidavit, sworn to before a notary public, and signed by his wife, to the effect that she has no objection to his enlistment, and that she is not dependent on him for support.

GAME IS RAIDED; SOLDIERS FREED

If there is \$36.35 in the pot. And the police hear the click of money. And the four players are arrested. And two of them are fined \$10 each. And the other two are let go because they intend to be soldiers, which are the losers. If the future guardians of world freedom owned most of the confiscated \$36.35?

This is the only question that was left unsettled by Judge Briggs yesterday morning when the four confessed gamblers appeared in his court. But the judge is an upholder of the law and not a mathematician. So he fined W. A. Middleton and Robert Middleton \$10 each. And he allowed Miner Crawford and T. C. Armstrong to go free. They told him they intended to leave within ten days for service in the army. The raid was made at the Winchester lodging house, 1244 Broadway, between J and K, by Sergeant Wickstrom and Patrolman Neely.

GRACE M. E. ENTERTAINS.
An entertainment consisting of a musical program of songs, duets and quartets, and a series of fourteen living pictures will be given this evening at the Grace M. E. church at 8 o'clock. Rev. W. L. Dexter, pastor of the church, will preside.

NAVY GETS TWO MEN.
Two men enlisted for the navy at the navy recruiting station in the federal building yesterday. The men were: Theodore L. Anderson, of Takersfield, and Charles A. Davis of Fresno.

IN MEMORIAM.
"I presume you carry a memento of some kind in that pocket you wear?" the inquisitive wife of the clergyman asked a parishioner.
"Yes. It's a lock of my husband's hair."
"But your husband is still alive?" the lady exclaimed in considerable surprise.
"Yes, that is true, but his hair is gone,"—The Youth's Companion.

SQUIRRELS MUST GO, SAYS COMMISSIONER

Concerning the complaints which some of the farmers of Fresno county are making in regard to the compulsory extermination of squirrels, according to the recently enacted state law, County Horticultural Commissioner, Frederick B. Dymond, has received a communication from the attorney general of the state, which shows that the county horticultural commissioner is empowered to call the squirrel on any farmer's property if the farmer will not do so and charge the expense of killing to the farmer.

In answer to a long letter from the state horticultural commissioner the attorney general said in substance: "You ask if a lien which attaches to property where the owner thereof refuses or neglects to pay his proportion of expense incurred in the extermination of ground squirrels would be a valid lien. I perceive to reason why such lien would not be valid, nor do I doubt the power to foreclose such lien in the manner prescribed in the 1917 statute."

The statutes of 1917 provide many requirements for the farmers by regard to the extermination of ground squirrels and other rodents, but it appears, according to Dymond, that the practical spirit of the enactment is to the effect that farmers must find their own means of extermination or have them killed by agents of the state; the same extermination to be done by agents of the county horticultural commissioner and the cost to be paid by the farmer who does not feel that he himself can afford to kill the squirrels or other crop-destroying rodents.

LOS ANGELES DRAFTED MEN.

The second quota of the drafted men of Los Angeles, 350 strong, will reach Fresno tonight and will have dinner served to them at the Armory by the Chamber of Commerce. A number of patriotic selections will be played on the organ by Earl Turner during the dinner.

For a Corn-Peeling Picnic, Use "Gets-It"

Pain—Eases at Once, Corn Just Dies! Do your corn-peeling easily, with a gentle—the banana-peel way. That's the "Gets-It" way—the only way your corn or callus comes off complete as though it were glad to get off.

"Gets-It" has cured more corns than all other remedies combined. It's as sure as the sunrise, and as safe as water. Used by millions. Don't take a chance with your feet. You can't afford to experiment with unknown mixtures when you know "Gets-It" never fails.

"Gets-It" will remove any corn, or callus. Wear these new, stylish shoes or pumps if you want to go ahead and dance. Demand "Gets-It"—throw substitutes back on the counter. See it all you need buy at any drug store or it will be sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Fresno and recommended as the world's best corn remedy by the Owl Drug Co. and Smith Bros.

FRESNO MEN TO REPORT THIS AFTERNOON

BOARD HAS NOT MEN
ENOUGH TO MAKE
UP QUOTA

Hope Certified List Will
Be Received Today
From Bakersfield

Twenty-eight Men May
Get Short Notice to Ap-
pear for Military Duty

Fresno County Division No. 2 was last night 28 men short its quota of 140 men to make up the second contingent for training at American Lake. The board has sent names of sufficient men to Bakersfield to make up the quota but the names have not been certified back. If a list is received this morning the board will select the additional 28 men and they will be notified to report for military service.

The board regrets that we are not in a position to give men a longer time in which to arrange their affairs, said W. H. Shaffer of Board No. 2, "but as the lists of available men are not in our hands we cannot make the selections of the additional men until the report is received from Bakersfield." The following men are to report today at 4 o'clock at the courthouse:

FRESNO COUNTY NO. 1 QUOTA UNFILLED

DIVISION NO. 1 IS STILL SHORT OF MEN FOR ARMY

Board Members Patiently Await Receipt of New List of Names

Many Men May Be Called at Last Moment to Go to Camp Lewis

Division No. 1 is 11 men short of its quota of 152 men to report this afternoon at 4 o'clock, for roll call, and to entrain tomorrow for Camp Lewis. Unless a new list is received from the district board in Bakersfield, by this morning, it will be necessary for board No. 1 to send a short list to the training camp in Washington. The same circumstances exist in county board No. 2. Of the 152 men—40 per cent of the quota—the board has 135 ready for military service. There are a number of cases before the district board in Bakersfield where the men did not claim but the lists have not been certified back to the local board. If the lists are received this morning the drafted men will receive two-hour notices to report for duty.

Following is the incomplete list for county board No. 1:

William Heimann,

TULARE COUNTY MEN LEAVE FOR CAMP

Great Crowd Assembles at Depot to Bid Them Farewell

VISALIA, Sept. 19.—Visalians bade good-bye this morning to 22 young men, representing all but one of the 40 per cent of the district quota who left for Camp Lewis, American Lake, Washington. Due to a slight delay, only 13 men left, and the exemption board upon ascertaining the situation prepared to send Arthur Bruce Carter of Lemon Cove, one of the alternates, on the next train to fill the quota.

Five men failed to respond to the roll call. They were Carl A. Litter, Angelo Angelus, Elmer Brown, Clarence Kumbaugh and Edwin H. Heptner. All five men were examined and certified and notified to appear, but the board was absolutely unable to get into communication with them at the last moment. They will be certified as deserters subject to summary arrest and court-martial.

A crowd of several thousand people was at the Southern Pacific depot to give the boys of this division, as well as those from the second Tulare county division, who left from here, a fitting farewell. It was the largest crowd that has been present for a similar occasion since Company D left for the Mexican border over a year ago.

The Japanese Association of Tulare county took occasion to bid farewell to the first Japanese resident of the county to go to fight for Uncle Sam—Takamato Kawamura of Oroqui—being one of the quota to leave. The Japanese paraded three in eight or ten automobiles, with an orchestra and band. The Japanese band played the inscription, "The first Japanese in Tulare county to fight for America," and "We are with you, Uncle Sam."

LINDSAY BIDS HER SOLDIERS FAREWELL

LINDSAY, Sept. 19.—Seventy-five people assembled at the banquet tables at a meeting held under the auspices of the Chamber of Commerce last evening to do honors to the men from this city before their departure this morning for American Lake. Patriotic addresses were made by Prof. F. H. Boren, George Warner, Judge D. M. Carter and Col. E. L. McLaury. Professor Boren, who acted as toastmaster of the occasion, presented each of the boys with a comfort bag, a gift of the Lindsay Red Cross chapter. Col. McLaury in a few well-chosen remarks

BOOSTER BUTTON WEARERS To Have Three Free Days at the Fair

All the youngsters in the country around should have a Booster Button to wear for it will give them the chance to get into the Fair rounds free of charge on Wednesday, Thursday and Friday. Every child under thirteen wearing one of the Fresno District Fair Booster Buttons will have a chance to see the biggest Fair ever held in this county absolutely without cost. It's going to be a big chance and no boy or girl should miss this opportunity.

There are a lot of children who haven't gotten their booster buttons yet and the had better hurry or they won't have a chance to see the Fair free. And they won't be there as guests of the Fair Association. All the children who have not already gotten their Booster Buttons should go to the Republican Office or to any of the branches and the will be given one of these buttons absolutely free of charge. Children living out of town can send in their names with a two-cent stamp and the buttons will be mailed to them.

BEAN GROWERS TO HOLD CONFERENCE

Methods of Harvesting and Threshing Are to Be Discussion Themes

Bean growers interested in methods of harvesting and threshing are invited by the county farm bureau to attend a bean conference called for 2:30 p. m. Saturday, September 22, in the auditorium of the lecture room of the chamber of commerce building. The county farm adviser will preside. Growers from different parts of the county have been invited to be present to give to all interested the benefit of their experience in various methods of harvesting. It is also desired that all available information concerning bean threshing outfits now ready for service be brought to this meeting.

Discussion will be informal and all growers are invited to contribute to a fund of information for the common good of the bean men of the county. Interest in the 1917 crop, stimulated by the offer of buyers to contract next year's crop of Tender and Black Beans at 5¢ and 5¢ cents respectively, has decided the farm bureau to call a bean conference at some later date, yet to be chosen for the purpose of disseminating information concerning varieties, methods and time of planting, irrigation and cultivation.

Plans for this big bean meeting, to be held during the winter, will be discussed Saturday afternoon.

BIGGEST LOCOMOTIVE IN WORLD. The greatest steam locomotive in the world has been put into service by the Baldwin Locomotive works. It is so gigantic that its boiler is made flexible at three different joints so that the locomotive could turn around a curve. It is more than 90 feet long and weighs some 450 tons. Twenty-four driving wheels, each standing as high as an average-size man, afford it traction. The driving wheels are distributed along the length of the locomotive in sets of four pairs. The wheels of each set being coupled together and driven by two giant steam cylinders. Under full steam the locomotive can exert an 83-ton pull on the cars behind it, which means that it can easily haul a freight train 2 miles long and 25,000 tons in weight over an ordinarily good roadbed at an average rate of about 14 miles an hour and possibly more. Bad roads will retard it only slightly. —Popular Science Monthly.

ODESSA, Russia, Sept. 18.—An imposing demonstration of revolutionary forces was held here today under the auspices of the local council of workers' and soldiers' delegates. Soldiers and workmen marched in a monster parade, bearing banners inscribed "Long live the provisional government." "Down with Korniloff." "Long live the democratic republic."

—R— REVIEWS —R— THE FLAME OF THE YUKON

"The Flame of the Yukon," now running at the Kinema, is one of a type of plays that have been well attended and which, especially through the use of judicious advertising, will get patronage that they could not maintain on their own merits. The use of the master sides of life, the delving into the dance hall, the saloon and the dive for subjects has been the source of some real addition to human knowledge and human sympathy, and yet has been an overdone and so-called to the purposes of mere publicity, that film as well as stage managers, are now lighting shy of the maudlin play of sentiment, as well as the problem drama.

Dorothy Dutton in this face drama, is at her best. I have seen pretty and with little of that even simulation of toughness which the part would seem to call for. By far the best thing in the story of "The Flame of the Yukon," is the fight. No play of this sort can get away without a fight—is it as conventionally necessary as the eternal triangle. But this was "some fight" and if you do not mind the brutality of wrestling that is meant to win life, you will enjoy this. If we must have fights, even if it is well if they are, like this, well fought. R.

BUMPER CROPS ARE SEEN IN 20 STATES

Attorney Huebner Says
No Cause for Alarm
Over Food

That there is no cause for alarm over the bumper crops in America if the people continue to maintain next year the bumper crops of food stuffs and fuel, is the opinion of Attorney F. C. Huebner, who has just returned from a motor trip that carried him through twenty states.

"During the past three months," said Huebner, "I have been in and passed through twenty states and, always having been interested in agriculture, it was a pleasure to see the corn fields in eastern Texas and other southern states. They were well advanced the latter part of August."

"In southern Illinois, Indiana and Ohio the early growth of the crops was checked by cold weather and constant rains, but in the latter part of August the corn had recovered and was growing nicely. In the north and eastern Nebraska was one continuous cornfield and made a most excellent showing. The only complaints of drought were from farmers in northern Illinois and western Nebraska. The Nebraska farmers said this was the fifth consecutive year that the hot winds had withered their crops, but the loss this year is unimportant in determining the average crop."

"Patches of potatoes dotted the country wherever they could be grown in fields, new clearings or backyards. In Ohio the bed of the abandoned Ohio canal had been planted to potatoes. Fat cattle everywhere frequently suggested the 'Why should we eat?' for a good reason. As to prices, comparisons showed that Fresno is as low, and often lower, than any other place."

"Gasoline is a staple article, which illustrates the point. The price per gallon, as follows: Philadelphia and all Ohio points, 25¢ to 25¢; Pittsburgh, three grades, 25¢, 25¢ and 35¢; the latter grade corresponding to the real gasoline that we buy here. At Washington, D. C., Wheeling, W. Va., and Chicago, 25¢ to 25¢. All points in Indiana, Illinois, outside of Chicago and Iowa, 21¢ and 22¢. Western Nebraska, Colorado, New Mexico and Arizona, from 25¢ to 30¢, and in the San Joaquin valley from 15¢ to 20¢ for gasoline and 15¢ for distillate."

Discussing the war situation, Attorney Huebner said the east is more alive to the real presence of war than the west. "Probably this is due to the presence in the east of the large camps of soldiers in training and to the fact that throughout the east are the great concentrating points of the war energies. I cannot subscribe to the idea that the east is more loyal than the west. With isolated exceptions everyone who speaks English with whom I had any conversation expressed their love and loyalty to our country."

"Flags of many countries were floating from every available place, and in one Texas town, the stars and bars were waving from the flag pole, but in every town the stars and stripes were floating above all."

"A long trip across the continent has shown me many varieties of scenery that awaken curiosity, wonder, architecture ranging from the beautiful public buildings of the national capital to the mud-brick, flat-roofed pueblos of the Indians in old Laguna; natural wonders from the grayling forests of Arizona, kinds to the petrified forests of Arizona, all impressive of the extent, grandeur and greatness of our country."

Did I love the world—did I love my kind?
That was the question I pondered so,
That was the thing I did not know.
But, seeing with heart, or soul, or mind
How hateful is Hate and the works
thereof.
It was then that I knew my choice was
Love.
As over the seas a song was blown,
In another tongue, but of import clear—
Blended of Hate—of the devil's own.
A Hymn of Hate—of the devil's own.
It was from that moment my heart began
An unceasing Hymn of Love for Man!

If ever from Evil has come forth Good,
May it not be that the wide world's
heart
(Even as mine) has understood
How hateful is Hate and has taken
Love's part.
Even for them who yet blindly fight,
Enslaved by the foes of Freedom and
light!

MY DREAM BOAT.
The boat of my dreams I launched away
In the strength of youth's desire,
On the sea of the youth's tears
With its laughter and tears
And the storms that the fates conspire.
The boat of my dreams, with a wish for
a sail,
And never a thought of a shoal,
With hope at the helm,
And the beautiful realm
of happiness for my goal.

I launched away on a sea unknown,
And the soft breeze filled my sail;
The years flew by
Neath a cloudless sky,
And I scorned the rising gale.
But, alas! the fierce winds rent my sail,
And my dream boat went astray;
Of my wish bereft
There's nothing left
But a prayer at the end of the day.
—Richard Hamilton in the Christian Her-
ald.

Something for You to Think About

When You Buy a Bicycle Investigate It
Thoroughly---Get Under the Paint

Just stop and think before you buy a bicycle. Give it a little thought, the same as if you were investing your money in real estate. Find out just what is under the paint—find out something about the methods of manufacturing it. We invite you to compare the PIERCE with any bicycle on earth, part for part. If you will do this you will realize why we have been so successful selling Pierce bicycles in Fresno for the last 16 years.

**The Construction of a
Pierce Bicycle**

Every bearing in the PIERCE is turned up on a lathe from bar stock. You can't put better steel into them than this bar stock. Cheap wheels are made from sheet steel stamping. Pierce bearings will outwear any other make.

Brazed Joints Versus Dipped Joints

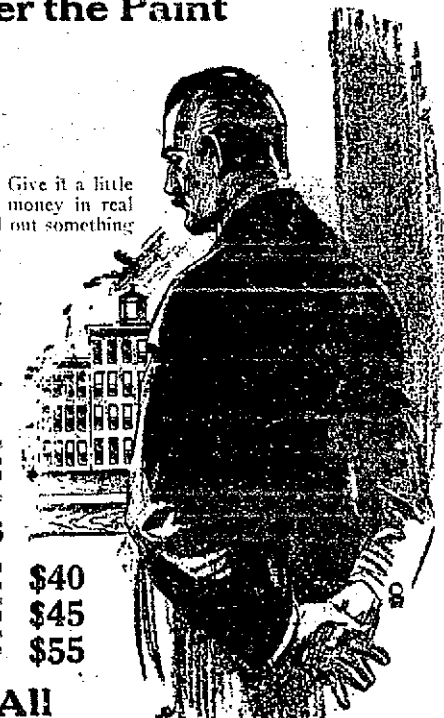

There is absolutely no comparison. The joints brazed in the open hearth are guaranteed to be perfect, because in this way there is no possible chance for the brazing brass to be forced into the joint, whereas by the dipping method used in the cheaper make bicycles the brass gets into the joint and maybe it doesn't. You take no chance with the PIERCE.

**Pierce Cranks Are All
Drop Forged**

Drop forged steel is acknowledged by all to be the very best for any purpose. Pierce cranks are not only drop forged, but they are nicked on copper, making them very durable.

**The Final
Finish**

Pierce bicycles are not just painted but they are given four coat coats of baked enamel which gives them a wonderful lasting finish. The mud guards are given the same finish.

Fifty Surprises In the Latest Mitchells--See Them

No matter how well you know fine cars, scores of features will surprise you in the Mitchells, we believe.

These are examples of the extra values. And they are fine examples. All are produced complete—chassis and body—under John W. Bathe, the efficiency expert. And in a model plant, where up-to-date methods have cut labor cost in two.

Wanted Extras

The Mitchell Company has taken pains to learn what features men and women want. And they are all in the latest Mitchells.

There are 31 features rarely found in cars. These include a power tire pump, dashboard engine primer, reversible headlights, etc.

There are shock-absorbing springs, found on no other car. They make the Mitchell the easiest-riding car. In two years—since this feature was adopted—not a single spring has broken.

Double Strength

But the greatest Mitchell feature is the 100 per cent over-strength. In the past three years the margins of safety in Mitchells have been doubled.

Safety parts are vastly oversize. Castings are almost eliminated. Over 440 parts are built of toughened steel. The Mitchell Company spends \$100,000 yearly on radical tests and inspections.

The result is a lifetime car. Two Mitchells that we know of have already been run over 200,000 miles each.

8 Smart Styles

The Mitchell line now includes eight

exclusive styles. All are designed by Mitchell experts and built in the Mitchell body plant.

They include open cars and closed cars, convertible cars and sport cars. All of them distinctive. They come in two sizes, at two basic prices. No other cars in the Mitchell class offer so many appeals.

You must see the Mitchell before you buy any car. See these cars next week at the Fair.

The German Wolf in Argentina

Smoked Out at Last, the Major Issue Now Is With Sweden.

By WILFRED H. SCHOFF

Secretary of the Commercial Museum; Author of "American Commerce and Investment in South America" and "South America, Colonial and Republican."

(Copyright, 1917, by The National Editorial Service, Inc.)

The State Department at Washington has smoked out the German wolf in Buenos Aires; but it is a question whether the incident will be pressed to its logical conclusion, so far as concerns Sweden's role of suspected accomplice, or should be.

No attention need be wasted upon Germany or its diplomats; they are of the one kind. The vital aspects apply to Sweden and Argentina. The Argentine people can be left to decide whether their honor require any satisfaction other than the disavowal and dismissal the situation obviously demands.

The sinister recommendation of the German, Luxburg, that Argentine shipping be "inspired" (varnished) has not yet been complied with by its superiors at home, and his cavalier description of Argentina's minister of foreign relations as "a notorious ass" was no more offensive than was the epithet applied by the Spanish minister, Dupuy de Lome, to President McKinley—"politico-castro," which meant "a low politician." That epithet led to de Lome's resignation, but it did not serve as the cause belli for our war with Spain, although it embittered the relations between the two countries.

The major issue is with Sweden. Added weight is given to suspicion of the genuineness of Swedish neutrality. Although it may be possible for a cautious government at Stockholm to place the responsibility upon individuals, there will be required some very brilliant excuses if Sweden is to acquit herself, even technically, of duplicity.

If duplicity is proved this would be by no means the first instance of such methods being employed by the royal House of Sweden. Bernadotte, founder of the dynasty, was one of Napoleon's generals, who secured possession of his throne by playing Judas to his master. Since the Peace of Vienna the Swedish royal family has been persistently "Germanized" by marriage with German princesses, the latest of whom, the reigning Queen of Sweden, is a daughter of the Emperor of Germany.

Sweden is Greece all over again. But the hold of Germany on Sweden penetrates far more deeply and widely into the Swedish body politic than it did into the Greek. There have been many of the national matters between Germany and Sweden, notably, so that the Swedish ruling class is almost solidly pro-German, while trade relations have been so intimate, both before and during the war, that Sweden has been to a considerable degree, part of the economic system of Germany.

These two unions carry even more weight than does the royal alliance. Of all European countries outside of Prussia, Sweden has perhaps the largest measure of the feudal system still active in its government. Theoretically, universal suffrage prevails; in practice, the affairs of the nation are directed by hereditary caste, to an extent equaled only by the Prussian Junkertum as evidenced in the German Bundesrat and the Reichsrath. Politically, therefore Sweden is a natural ally of Germany.

Economically Sweden has bought more goods from Germany than from any other nation; and Germany and Great Britain have alternated as Sweden's chief customer. For some years prior to the war the balance of the Swedish-German trade was in Germany's favor by an average of 75,000,000 kroner—nearly \$20,000,000—thus making a commercial credit on Germany could draw steadily for war supplies.

This condition is reflected by Sweden's vast increase in exports to Germany since the war broke out, not only of such supplies as Sweden could produce from America and elsewhere, but of the products of her own farms, forests and mines. Germany has done its fighting to an appreciable extent on Swedish iron, pyrites, lumber, wood pulp, meat and dairy products.

Sweden has been a thorn in the side of the Allies ever since the war began, taking in a surplus of food products to make good her own depleted stocks and cutting off from Great Britain much-needed forest and mineral products. It has been notorious that Sweden's imports of commodities from Germany, especially to the United States, increased in direct proportion to her exports of foodstuffs to war-bound Germany. Even before the exposure of Sweden's diplomatic duplicity it had become a question of how long this condition could be allowed to continue.

If the Luxburg incident should lead to the enforcement of a complete embargo against Sweden, her ruling classes will have only themselves to blame while the real sufferers will be the Swedish people who have little concern in the profiteering of the magnates covering their tracks. Inflation has compelled them to pay higher prices for the necessities, in which serious shortage now impends. The Luxburg scandal amply warrants the United States in an embargo so remorseless that it shall nullify Sweden's questionable economic activities. It would be of very doubtful advantage to the Allied cause for this country or Great Britain to make the affair a ground for breaking off relations. Driven to active participation in hostilities, Sweden could throw 100,000 men, at her choice, either into the war, creating a new eastern front north of the Baltic to the further dismay of disorganized Russia, or into Norway to the paralyzing of such Norse shipping as has thus far survived Germany's pitiless policy of U-boat extermination against Norway's merchant marine.

CHAIRLESS PEOPLE.

Something is one of the many things which a white man may learn from watching his shikaroes and guides, and which in the wilderness he may adopt without losing caste. We are a chairless people, and dare hardly even cross our knees in public. The how many of us enjoy sitting Buddha-fashion or as near to it as we can attain when the bon of society is lifted.

A chairless people, however, does not necessarily mean a more simple, primitive type. The Japanese method of sitting is infinitely more difficult and complex than ours. The characters of our weak-kneed, neolithic forebears are as yet too pronounced in our own bodies for us to keep an upright position for long.

Witness the admirable adjuvant of this anthropological fact by the architect of our subway cars, who know that only a little of their patrons will be fortunate enough to find room on the cane-barked seats which have come to take the place

STANISLAUS FINISHES THIRD EXAMINATION

MODESTO, Sept. 18.—The Stanislaus exemption board concluded yesterday evening physical examination of the third group of registered men called for today, and today is bending every nerve to selection of the 150 men to leave Friday with the San Joaquin valley contingent for Camp Lewis. Two thousand men have been before the board for examination, less some 50 per cent who have failed for one cause or another to heed the summons, and from this list it is expected the county's quota of 101 will be secured. Many of the men examined the last two days have volunteered to be assigned to the contingent to leave Friday.

The board certified the following seven more men to the district board yesterday evening:

Arthur Francis Boyles, Modesto.
Frank Enos DeCosta, Hughson.
Wesley Charles Maxson, Modesto.
Percy Meakin, Modesto.
Robert L. Nye, Modesto.
Harold Harland Peterson, Denair.
Andrew Valenzuela, Oakdale.

of the stumps and fallen bow of a hundred thousand years ago. So they have thoughtfully strung the upper reaches of the cars with imitation branches and waving boughs to which the passengers cling jealously, and swing with more or less of the grace of their distant forebears. Their run to be sure, is rubbed thinner, nuts and bolts have given place to newspapers and novels, and the roar and odor are not those of the wind among the leaves and blossoms. But the simile is amusing enough to end abruptly and permit individual imagination to complete it.—Atlantic.

A GLOOMY FUTURE.
"This raising of the price of bread by the bakers strikes me sometimes fierce!" "Oh, I guess you can stand it." "Yes, I know. But I was talking to my wife about it this morning, and she said to never mind; she would bake our own bread hereafter!"—Browning's Magazine.

HIGH AMBITION.
"What does your son expect to be?" "From the house he keeps, I should say he is naturally cut out to be a milkman."—Puppet.

**CLOSE FINISHES FEATURE
RACES AT KINGS
COUNTY FAIR**

COUNTY FAIR

HANFORD, Sept. 19.—The first day's racing at the county fair was marked by close finishes in all three events. The track was in good order, while racing took place before an excellent crowd. Both the trot and the pace were run on the very hust a race basis.

The following are the results:

2:25 pace, three heats of one mile; purse, \$400:

—Dircous Mac, first; Yevu Hall, second; Gay Tommy, third; Hurley, fourth. Time, 2:16 1-3.

2:14 took, free-for-all, three heats of one mile; purse, \$400.

Allie Lou, first; Great Policy, second; Miss Prince, third; time, 2:14½.

Allie Lou, driven by Ward, ran second in the first heat, but took the two succeeding heats. Great Policy took the first heat, and then ran second and third. Best Policy, driven by Brollier, was third in the first two heats and second in the third. Allie Lou was pushed to the finish in each heat.

Belle, first; Baby, second; Wild Rose, third; time, 55½ seconds. This race was for lady jockeys. It resulted in a fairly close race, Mrs. Rose Walker riding the winner, Mrs. Alice Hawkins the second, Miss Vera McGinnis the third horse.

The following in tomorrow's card:

Two races; purse, \$100.

1st Logan, h. g.; sire, Jami Logan; owner, J. R. Montgomery, Davis, Cal.
